Primordial Gods confirmed it (see post here http://rbt.asia/mu/thread/S46020067#p46020925)

The thread hit the bump limit and a new one was started here http://rbt.asia/mu/thread/S46021327#p46021327 where he says that he is uploading the contents.

After that thread hit the bump limit a new thread was made here http://rbt.asia/mu/thread/S46022688#p46022688 (he post the sd card content in this one

HE THEN UPLOADED THE CONTENTS HERE https://mega.co.nz/#!LAwi0DRA!LFVP6ZDKfl0Sp0wa8txCAJcTOBcCOQswKXITrNsWRvQ (the password is 3h7D72hdfG62BbbW

What was in that file was a bunch of paintings (By artist Goya) and a few instrumentals. Those most recent tracks (ζ, χ and ψ) are apparently originally by the artist Hurt Pact, though tidied up and refined.

Searching this name gives a Bandcamp, which is down right now. Searching /mu/'s archive results in one broken DDL link to his 2013 album.

Some discussion suggests he has changed his name to Primordial Gods and is being signed to Thirdworlds.

EDIT: The good people on /mu/ are speculating that this may be DEATH GRIPS hyping up for the April 14th blood moon

somebody posted this. which is included in the 4th file

[img]http://i.imgur.com/NR70ahA.jpg[/img]

OK OK. Im gonna take some stuff from /mu/ that somebody posted

>Overall

-All albums are 320kbps

-All albums come with a folder of 'random' black and white images

>Signal Stretcheth As Far Doth The Mind Of Man

-First album

-Filenames does not match track titles

concatenated = Heathrow

untitled = Alone Together/Something Cold

coeus = Signal Stretcheth

eas = Broadcast

-images folder contains images of Chicago, Annapolis, New York, and North Carolina. Also has one image from Virginia

>Ahead, The Beholden Primeva

-Second album

-Again, filenames don't match

scent of death = Cenotaph

skull and bones = Camera

-Images folder contains only bondage-related material

>Cogent Thought

-Third album

-Was removed from mega.co.nz, then re uploaded

-Filenames

lies = Braintree

thorns = Cannula

-Images folder has a self-harm theme with 2 images of just buildings

-Contains 'work.txt' file with the message: "I don't think of my work as evocative of "being completely alone". I think of my work as evocative of knowing you aren't alone, and also knowing that there's no one out there to help you."

>Oblong Number

-Musically different

-Contains correct filenames

-Actually contains a 'cover.jpeg + cover2.jpeg' instead of embedding

-The second cover is probably a 'sfw' version

-Random images of bondage porn and food.

-Could be a decoy or fake (its not it came from the same trip)

connection between them and Death Grips

(4/10/14)Alright heres the last(?) of info that /mu/ found

>Signal Stretcheth As Far Doth The Mind Of Man (first album)

-The cover says 'the oriental institute museum', which is in Chicago.

-This album's title may be from the play Doctor Faustus, by Christopher Marlowe

>"based on the German story Faust, in which a man sells his soul to the devil for power and knowledge. Doctor Faustus was first published in 1604, eleven years after Marlowe's death and at least twelve years after the first performance of the play. It is the most controversial Elizabethan play outside of Shakespeare, with few critics coming to any agreement as to the date or the nature of the text."

>Ahead, The Beholden Primeva

-Couldn't find the album title's meaning.

>Cogent Thought (third album)

-Simply means 'believable thought', this could be referring to the dark thoughts depicted in the album cover and in the songs. I can't understand the lyrics in Cannula, so if somebody could transcribe them or something, that could be cool.

>Oblong Number (fourth album)

-The first two songs are WAY more IDM than the other albums. This doesn't sound like 'Primordal Gods' at all.

-The third track goes back to dark ambient again.

>comments from the song files

-The 1st album says "encoded in FL Studio" and all the other ones do not

-The 4th album is the only one that has a different genre. This also adds to the suspicion that it's a different person.

-Oblong #1's comment is 'Thayer'

-Oblong #2's comment is blank

-Oblong #3's comment is '4/15/2014'

(4/11/14 edit) Somebody on /mu/ has noticed that the photos from the 5th file have all have been taken on 4/15/14

[color=#FFFF00](4/12/14 edit)[/color] [size=150]6th file breakdown (so far) (posted by somebody on /mu/[/size]

>End of Life Care

-6th album

-First album to have people in the images folder

-All tracks are in russian

-1. 4/5 = "sentence"

-2. Tuning = "Death"

-3. Deaths = "Oyster"

-4. Cavendish = "man"

-5. (image) "End"

-This album's genre is a lot less 'spooky' and more experimental electronic.

-5th 'track' is actually an image in reference to a blood moon (see below)

[img]http://i.imgur.com/3SAaGdB.png[/img]

Another thing I noticed was that I saw this image before on /r/urbanexploration where the title was something like "I almost fell down these stairs" (yeah, haha I go on reddit, but this shows how he isn't taking this pictures himself)

[color=#FFFF00](4/12/14 edit)[/color] [size=150]7th file breakdown (info/instructions) (so far)[/size]

This file contains an image that is password protected and an .wav file that sound slowed down, here is is sped up http://vocaroo.com/i/s1xDZblaDWS2 (the password is w45q11k0z099099 btw)
